Weight Recording Sheet

Due to STAP (Sheep Technology Adoption Programme) this year Sheep Ireland require that breeders notify them of the NSIS (Tag No's) of all the performance recorded lambs in advance of **April 30**th. Where NSIS were not previously submitted to Sheep Ireland it is strongly advised that both IDs are recorded on this sheet.

*Note on Group: group refers to management group, lambs managed under different conditions need to be identified with a different group number. Eg, different feeding or health care regime

Pedigree ID	NSIS	Weight (kgs)	Date of Weighing	*Group (1,2,3 etc)
Example: ABC14001	02156C	26.5	21/01/2014	1
