Hill Ram Catalogue Explanation Page

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

The information provided in this catalogue should **never be the only tool** used when selecting animals for breeding. Animals must also be examined to ensure physical correctness; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of the information provided in this catalogue and should be avoided for breeding purposes. See below how to interpret this Hill Ram catalogue.

Sheep Improvement Scheme Eligibility – Hill ram breeders that are members of an existing hill ram breeding group/association are eligible to produce SIS eligible hill rams. The objective of this SIS task is to lay the foundation for hill sheep flockbooks (ancestry database) into the future. Encouraging the use of 'Sire Verified' Hill rams delivers major immediate benefit to the hill sector including; Ram buyers can now control Inbreeding risk (by monitoring ancestry info) & Scrapie resistance information.

RamSearch.ie

To locate more SIS eligible hill rams in your area visit the Sheep Ireland Online Ram search 'ramsearch.ie'. Here you can search for rams by hill breed, county & SIS eligibility.
