2026 | Issue 13

CHAIRPERSON'S MESSAGE

Denis Carroll

Denis is a commercial sheep and dairy farmer from Killarney, Co. Kerry.

As chairman of Sheep Ireland, I am pleased to reflect on the progress made across the sector since last year. Despite ongoing challenges on farms, we have continued to strengthen performance recording, improve the quality of genetic evaluations and expand the use of data-driven breeding tools to help flocks become more productive, efficient and resilient. The continued development of genomic services, increased engagement with breeders and the growth in flock participation have all helped build greater confidence in the value of informed breeding decisions.

We have also seen encouraging momentum in hill sheep, with dedicated work to support hill breeding groups and the ongoing development of flockbooks and genotyping initiatives that will help protect valuable hill breeds while

creating opportunities for long-term genetic gain.

Looking ahead, our aim is to keep delivering practical tools that work for commercial and pedigree farmers alike. We want to further improve the accuracy and relevance of our evaluations, support greater uptake of recording technologies, and ensure that breeding programmes reflect the needs of a changing industry.

For hill sheep in particular, our focus will remain on preserving breed identity, improving data quality and giving hill farmers better information to breed robust, fertile and efficient sheep suited to their environment. By continuing to work together across the industry, we can make steady progress and secure a stronger future for Irish sheep farming.

CPT Ram Sale 2026

This sale offers a unique opportunity to purchase high-quality, progeny proven rams from a range of different breeds. All rams are 2–3 years old and have been independently performance tested through Sheep Ireland's Central Progeny Test (CPT), giving buyers

confidence in their genetics and performance.

The sale will take place as an online timed auction from **7th–9th July**, accessible via Marteye through Tullow Livestock Sales.

Scan the QR code to access the online sale and view all rams on offer. Don't miss out – secure top-quality, proven genetics for your flock.

7th–9th July

Sheep Ireland Lowland Sale

This will take place in **Kilkenny Mart** on the fourth **Saturday** in **August (22nd)**

Sheep Ireland Hill Sale

This will take place in **Manorhamilton Mart, Co. Leitrim** on **Friday** the **9th** of **October**

Key elements of the €uroStar Indexes

Accuracy % – Key figure

Accuracy % in €uroStar evaluations indicates how much data supports each index. Low accuracy (<35%) means results should be interpreted cautiously, while high accuracy (>70%) provides strong confidence for breeding decisions.

DQI – Data Quality Index

The Data Quality Index (DQI) shows how well a LambPlus flock is recording data during the year, looking at the quality, quantity, and how up to date it is. It's shown as a percentage in €uroStar sale catalogues and on the Sheep Ireland breeder & ram search on the website.

Main elements of the DQI:

- **Quality:** Does the data show realistic variation across traits (e.g. lamb mortality, lambing difficulty,

lamb weights), indicating reliable recording.

- **Quantity:** Has all required data been recorded (e.g. lambing for all ewes, weights for all lambs), helping maximise the accuracy of €uroStar indexes.
- **Timeliness:** Is data submitted promptly, reducing errors and the risk of index changes close to the ram sale season.

Top tips on Accuracy %

- **Buy rams with high accuracy %**
- **Choose genotyped rams** (higher accuracy %)
- **Source rams from high DQI LambPlus breeders**
- **Select rams with CPT data in their background**

Lot 1: ARROW A1924023, IE041234501234D

DOB: 03-JAN-2024 • Charollais • Male • Triplet • CPT Sire • M&F Scanned • Parentage DNA Verified • Scrapie: Type 1

Breeder: **JOHN MURPHY** • Enniscahy, Co. Wexford

Owner: **ANDREW FARMER** • Edenderry, Co. Offaly

DQI: 62%
DQI: 87%

 SIS: Yes

There are three main updates being introduced for the 2026 Evaluations

1. Economic Values

Updated to reflect current costs and lamb prices, ensuring €uroStar indexes remain accurate and relevant to modern farming.

2. Methane Trait

The update includes lambs methane output. Selecting lower methane animals also

improves key profit traits (e.g. growth, survivability), reducing emissions while increasing performance.

3. Faecal Egg Count (FEC) Trait

Helps identify more worm-resistant animals, reducing reliance on wormers and improving long-term flock performance.

Understanding the Eurostars

Top 14%

How to interpret the figures of the EuroStar Evaluation in a catalogue?

The € value represents the difference in profit that each lamb sired from this ram will have

Replacement (i.e. €3.77)

Do you want a ram to breed lambs for slaughter and replacement ewe lambs?

So, you should select a ram based on this index, which is a combination of:

Lamb Survivability, Days to Slaughter, No. of lambs born & Daughters milk.

Terminal (i.e. €1.66)

Do you want a ram to breed only lambs for slaughter?

So, you should select a ram based on this index, which is a combination of:

Lamb Survivability, Days to Slaughter.

Lamb Survivability

Looking for a higher lamb survival rate? Every positive % point on this index is an extra lamb surviving to 48 hours after birth.

Days to slaughter

Genetic ability to grow representing the difference in the predicted number of days required for the progeny of this animal to reach the desired slaughtered weight.

No. of Lambs Born

Ranks animals based on the predicted litter size or prolificacy of the their daughters.

Daughters Milk

Predicted weight difference of lambs based on the milking performance of its daughters.

★★★★★ 5 Stars → Top 81-100%
★★★★ 4 Stars → Top 61-80%
★★★ 3 Stars → Avg. 41-60%
★★ 2 Stars → Bottom 21-40%
★ 1 Star → Bottom 1-20%
Each Star represents the ranking of each index

EuroStars are compared with other animals of the SAME BREED

Euro-values are compared ACROSS BREEDS

Advertisers' Announcement

The Benefits of being Quality Assured

In a competitive global market, Bord Bia Quality Assurance, under the Origin Green programme, plays a vital role in protecting Ireland's reputation for high-quality, sustainably produced sheepmeat.

Benefits for farmers

By becoming Quality Assured by Bord Bia, sheep farmers can maximise the value of their lambs when selling directly to processors and keep their options open when choosing to sell their lambs in the live market.

Strong market demand

- 15% of all Irish sheepmeat is sold in Ireland. All the major Irish retail and foodservice customers require that their lamb is Bord Bia Quality Assured.
- Interest in Quality Assured lamb is growing among key EU customers – particularly those who already purchase QA-certified Irish beef.

Get involved

Over 13,000 Bord Bia Quality Assured sheep farmers are responsible for producing 70% of all lamb processed by Irish processors.

OviFlock

Hill Sheep Flockbooks

OviFlock is an EIP (European Innovation Partnership) project, co-funded by the Department of Agriculture, Food and the Marine (DAFM) and the European Commission, with an investment of €650,000 supporting full implementation. Focused on establishing hill sheep flockbooks in Ireland, the project is delivering practical support to hill sheep breeders through funding and data-driven tools, by genotyping female sheep to record ancestry, which is crucial for avoiding inbreeding, maintaining unique populations, and enabling genetic improvement.

Establishing Flockbooks

The project is successfully developing flockbooks for Irish hill sheep breeds, an important step forward for the sector. Genotyping of selected females is underway to accurately record ancestry.

Benefits for Breeders

DNA-based technologies are being integrated into farm decision-making, enabling breeders to track ancestry, manage inbreeding, improve flock performance, supporting long-term genetic improvement.

Engaged Participation

The project is actively engaging breeders within recognized hill ram breeding groups. New participants are welcome to get involved through Sheep Ireland.

Industry Collaboration

Running over five years, the project is on track and supported by strong collaboration across the industry. OviFlock brings together key stakeholders including Sheep Ireland, Teagasc, farmer representative bodies, processors, hill breeders, and commercial farmers—ensuring broad support and impact.

Ram Selection, Care, Fertility & Purchasing advice

Michael Gottstein – Head of Teagasc Sheep Knowledge Transfer

1. Physical Soundness Checks:

- Perform checks 10–12 weeks before breeding.
- Assess the **5 T's**: Timing, Tone (BCS 4), Teeth (annual check), Toes (lameness), Testicles (injury/swelling).
- Observe mating behavior; use raddles/crayon harnesses to track success.
- Handle rams safely; seek help when performing checks.

2. Purchasing Rams:

- Buy early to allow adjustment to new environment/feed.
- Know the ram's history: health, treatments, lameness.
- Quarantine and treat for parasites (worms, scab, fluke).

- Vaccinate against clostridial diseases and pasteurella.

3. Feeding & Fertility:

- Continue concentrate feeding if previously fed; wean off gradually.
- Raddle rams to monitor fertility; change color every 7–14 days.
- Body temperature rise as a result of infection will affect fertility.

4. Ram Management:

- Ram lambs: max 25 ewes; Hoggets: up to 40.
- Avoid mixing ram lambs with mature rams.
- Assess existing rams early to avoid inbreeding and ensure readiness.

SUPPORTING FARMERS FOR OVER 50 YEARS.

For over 50 years FBD has been invested in agriculture, farming and rural life in Ireland. With our local network of 34 branches across the country we are uniquely placed to support Irish farmers and their communities.

FBD Insurance is proud to support Sheep Ireland.

The Sheep Improvement Scheme (SIS)

Genotyped Ram Action

The DAFM SIS Genotyped Ram Action represents a major opportunity to accelerate genetic progress across the sheep industry.

Lowland Flock participants must purchase rams (in the selected year):

1. 4 or 5 Stars (Replacement or Terminal Index) at time of purchasing
2. Have a genomic evaluation & Scrapie Type 1 - 2 - 3

Hill Flock participants must purchase rams (in the year selected):

1. Hill breed (Blackface Mountain or Cheviot type)
2. DNA sire verified & Scrapie Type 1 - 2 - 3
3. Lowland SIS rams option is also available to Hill flocks

Finding SIS eligible Rams or Flockbook animals?

Check our Ram Search!

Scan QR or visit www.ramsearch.ie → select filters or enter ID → view

✓ **SIS rams** details instantly!

Search for Rams by Breed, Age, Star rating, Location, SIS Eligibility and much more. You can also search the Tag number of any ram to assess their SIS eligibility at any time.

How to Scan the QR Code:

The image shows a screenshot of the Ramsearch website interface. It includes a map of Ireland, a search bar, and various filters such as 'Breed', 'Age', 'SIS eligible', 'Bred by CTF time only', 'Genotyped only', 'Replacement Index', 'Terminal Index', 'No of Lambs Born', 'Daughters Milk', 'Lamming Survivability', and 'Days to Slaughter'. A circular inset highlights a QR code, and a hand is shown holding a smartphone to scan it.

- Open your phone's camera;
- Point it at the QR code;
- ✓ Tap the link to open Ramsearch

Hill Breeders Directory 2026

Only hill ram breeders that are current members of a hill ram breeding group and that have genotyped hill rams in their flock at the time that this publication went to print are included in this directory. View our online ram search www.ramsearch.ie for a completely up to date list of breeders (including those that may have genotyped hill rams since this publication was printed). This directory is organised by Sheep Breed, then county, then breeder surname (all in alphabetical order).

Consistently using 5-Star rams leads to gains on many traits that have a big impact on flock profitability!

Comparing

1 Star vs 5 Star Genetics

Terminal Index

The difference in terminal traits between 1 & 5 stars

- 3% less lambing difficulty
- 1.5kg heavier at weaning
- 15 days quicker to slaughter

Replacement Index

The difference in replacement traits between 1 & 5 stars

- 0.14 more lambs born/ewe
- 1% less barren ewes
- 1.5% more lambs surviving at birth

** Data sourced from Sheep Ireland Central Progeny Test (commercial) flocks.*
