Hill Ram Catalogue Explanation Page

Important: The Pedigree Information printed in this catalogue is as supplied by or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not Sheep Ireland.

The information provided in this catalogue should **never be the only tool** used when selecting animals for breeding. Animals must also be examined to ensure physical correctness; an animal that is not physically correct (ie. mouth, feet, etc.) cannot compensate for this fault regardless of the information provided in this catalogue and should be avoided for breeding purposes.

See below how to interpret this Hill Ram catalogue.

OviFlock is a European Innovation Partnership project funded by the Department of Agriculture helping hill sheep farmers build flock records using DNA. It focuses on setting up flockbooks for Ireland's hill breeds, with ewes genotyped to track ancestry. This helps avoid inbreeding, protect unique bloodlines, and supports better breeding decisions for stronger flocks over time. The project works closely with recognised hill ram breeding groups, and you need to be a member of one of these groups to take part. Breeders can get involved and find out more through Sheep Ireland.

RamSearch.ie

To locate more SIS eligible hill rams in your area visit the Sheep Ireland Online Ram search 'ramsearch.ie'. Here you can search for rams by hill breed, county & SIS eligibility.

Contact Us

Find out more about Genotyped Hill rams, Sheep Ireland or the Online Ram search you can visit www.sheep.ie, E-mail query@sheep.ie, or Call us on 023 882 0451
